ACKNOWLEDGE

eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- Practice step by step i.e. ladder approach.
- Build a larger more robust application.
- Usage of certain utilities in applications designed by user.
- Single program to unified code leading to a complete application.
- Learn implementation of concepts in a phased manner.
- Enhance skills and add value.
- Work on real life projects.
- Give a real life scenario and help to create applications more complicated and useful.
- Mentoring through email support.

SYNOPSIS

GRACIOUS GARMENTS is selling various types of GARMENTS for both MEN and WOMEN. The company advertises by distributing the pamphlets, advertising on television and so on. Due to rapid development in internet field, the company decides to launch a website where people will get all the information about the various products available with them easily.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

PROBLEM DEFINITION

PROBLEM DEFINITION

GRACIOUS GARMENTS is selling various types of GARMENTS for both MEN and WOMEN. The company advertises by distributing the pamphlets, advertising on television and so on.

Due to rapid development in internet field, the company decides to launch a website where people will get all the information about the various products available with them easily.

FUNCTIONAL DESCRIPTIONS

The Web site is to be created based on the following premises:

Home Page:

- A carousel on the top of the page to showcase notable products
- A separate section for new products
- A separate section for trending/ best-selling products
- Includes information about the company (logo, biography, information, organization,...).

Navigation bar:

- Contains the following buttons: Home Page, Products, Brands, Contact Us, User, and shopping cart
- Clicking on each button leads to its respective webpage.

Products:

- Mainly classified into different types depending on the type, brand and gender.
- A brief summary of features of individual products is provided with suitable images.
- The detailed information of the product can be downloaded (in MS Word format) or viewed by the User.
- Users can also compare various products with each other using various standards (Price, Measurements, brand).

Brands:

- The information should be categorized according to the brand names of the products like if a User wants to see only “Van Heusen” products or any other

companies products then he/she can click on a Link/button/menu etc and can see only that Brand products.

- When a user selects any particular brand, a list of products for that brand will be displayed

Contact Us:

The contact item must include the necessary contact information such as:

- Company Address: Geolocation API integration (Example: Google Maps ...)
- Email: When you click on the email address, the user will be linked to the email compose window from the user (To the email address of GRACIOUS GARMENTS).

Search:

- Costumers can search products by typing in a few characters of its brand, name or style for relative results.

User:

- There will be "Forms" for the registration of users. (The form is designed based on the necessary information such as: personal information, sex, location, age ...).
- Access to sales website
- Choose the product you want to buy as men's or women's fashion for each item individually
- Know product's price information
- Information about the promotion of the product at any time.
- Know the delivery method when placing an order
- Payment method on receipt of goods
- Incentives when buying.
- Address information of the store.

Webmaster:

- Make sure the website is always working properly
- Frequently update products as well as policies for customers
- Customer Information Management.
- Frequent support when customers comment when buying products.
- Update new features

Product Purchasing:

- The user can choose to purchase the product by click to the product's photo or the "select" button or you can deselect by selecting the product image again or "deselect" button.
- User can enter the necessary information for delivery (name, address, phone number ...) .

Footer:

- At the end of each webpage, there will be a Footer which includes the company's address, e-mail, working time, purchasing methods along with a list of famous brands for sale etc.

Design Plan: Gracious Garments	Document Name: Customer Requirements Specifications	SWD/Form No. 01/CRS/Ver1.0
Effective Date: 7/11/2020	Version 1.0	Page No: 7/ 23

CUSTOMER REQUIREMENTS SPECIFICATIONS

DATA PROCESSING

User:

Input

- Fill in form for Account Registration
- Selecting goods into the shopping cart for purchase
- Write comments to the company

Process:

- Check the shopping cart
- Download goods' information in Word document format

Output:

(users will receive the following notifications)

- Successful registration notice
- Notice of added goods into shopping cart
- Notice of failed registration

HARDWARE/ SOFTWARE REQUIREMENTS

Hardware

- PC: from Pentium 166 or better
- RAM: from 64 Megabytes of RAM or better

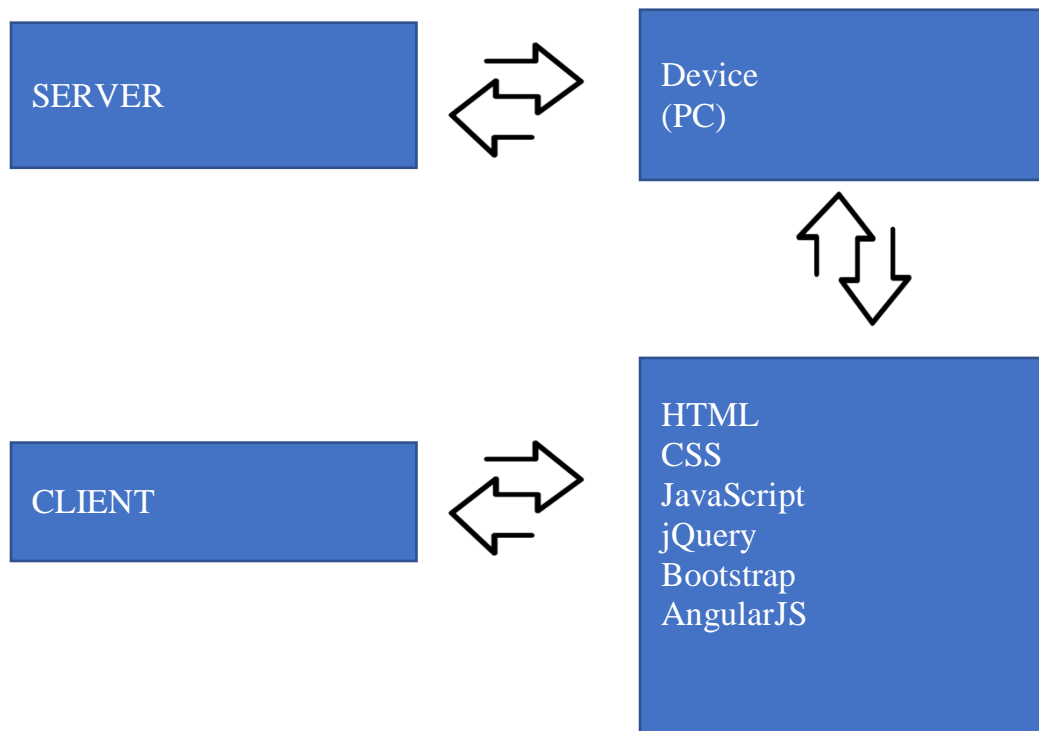

Software

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/Netscape 6.0
